Part III DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. § 103 which forms the basis for all obviousness rejections set forth in this Office action:

A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Subject matter developed by another person, which qualifies as prior art only under subsection (f) or (g) of section 102 of this title, shall not preclude patentability under this section where the subject matter and the claimed invention were, at the time the invention was made, owned by the same person or subject to an obligation of assignment to the same person.

2. Claims 1,2,7 and 8 remain and 9 to 25 are rejected under 35 U.S.C. § 103 as being unpatentable over Sifniades in combination with Anderson et al and Barcilli, for the reasons of record.

Rationale: The old claims and newly submitted claims remain rejected since each case must stand on its own merits. Applicants have not submitted evidence to overcome the rejection of record which was affirmed by the Board Of Appeals. The newly submitted claims are broader in scope than the original claims which were found not allowable by the Board of Appeals. Moreover, these claims are based on the same disclosure as the originally

rejected claims and are read in the light of this disclosure. The claims of Zakoshansky are also read in the light of his disclosure which differs from the instant disclosure.

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jamer H. Reamer whose telephone number is (703) 308-4461.
